AI-Enhanced Resume

****Yasiru Maleesha****

****Software Engineer****

[City, Country] | [Phone Number] | [Email Address]

[LinkedIn Profile Link] | [GitHub Profile Link] | [Portfolio Link]

****SUMMARY****

Results-driven Software Engineer and Undergraduate student with a strong foundation in full-stack web development. Specializing in the ****MERN stack**** (MongoDB, Express.js, React.js, Node.js), I have a proven track record of building scalable, user-centric applications during my internship. Adept at problem-solving, collaborating in Agile environments, and committed to writing clean, maintainable code.

****SKILLS****

- * ****Frontend:**** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux
- * ****Backend:**** Node.js, Express.js, RESTful APIs
- * ****Database:**** MongoDB, Mongoose (ODM)
- * ****Tools & Version Control:**** Git, GitHub, Postman, VS Code, NPM
- * ****Methodologies:**** Agile/Scrum, SDLC, Component-Based Architecture

****EXPERIENCE****

****Software Engineer Intern****

[Company Name] | *[Location]* | *[Start Date] – [End Date/Present]*

- * Assisted in the development of responsive web applications using ****React.js****, improving front-end performance and user experience.
- * Built and integrated ****RESTful APIs**** using ****Node.js**** and ****Express.js**** to facilitate seamless communication between the client and server.
- * Managed data modeling and schema design using ****MongoDB****, ensuring efficient data storage and retrieval.
- * Collaborated with the engineering team to debug complex issues and perform code reviews, ensuring high-quality software delivery.
- * Participated in daily stand-ups and sprint planning sessions under the ****Agile**** methodology.

****EDUCATION****

****Bachelor of Science in Computer Science / Information Technology****

[University Name] | *[Expected Graduation Date]*

- * ****Relevant Coursework:**** Data Structures & Algorithms, Web Application Development,

Database Management Systems (DBMS), Software Engineering Principles, Object-Oriented Programming (OOP).

PROJECTS

****Full-Stack E-Commerce Platform | [Link to Project/GitHub]****

***Technologies:** React.js, Node.js, Express.js, MongoDB*

- * Developed a fully functional e-commerce site with user authentication, product search, and a shopping cart system.

- * Implemented ****JWT (JSON Web Tokens)**** for secure user authorization and protected routes.

- * Utilized ****Redux**** for centralized state management across the application.

****Task Management System | [Link to Project/GitHub]****

***Technologies:** MongoDB, Express.js, React, Node.js*

- * Designed a CRUD-based application allowing users to create, update, and track daily tasks.

- * Integrated a responsive UI using Tailwind CSS for cross-device compatibility.

CERTIFICATIONS & AWARDS

- * ****[Name of Certification, e.g., Meta Front-End Developer Professional Certificate]**** – [Year]

- * ****[Name of Certification, e.g., JavaScript Algorithms and Data Structures]**** – freeCodeCamp [Year]

- * ****[Dean's List/Award Name]**** – [University Name] [Year]

LANGUAGES

- * ****English:**** Professional Working Proficiency

- * ****[Native Language]:**** Native Proficiency
